

Girls! Lots of Beautiful Hair

25 cent bottle of "Danderine" makes hair thick, glossy and wavy. Removes all dandruff, stops itching scalp and falling hair.

To be possessed of a head of beautiful hair... soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine. It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25-cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yet—really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once. If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Advertisement.

CHILDREN SHOULD LEARN TO THINK

Little Tots Ought to Be Given More Leeway and Should Not Be Led Around So Much.

ARE NOW TOO DEPENDENT

Teachers shouldn't spend their time exclusively "teaching" the young idea how to shoot. They should just "let it shoot." This was the gist of speeches at the meeting of the kindergarten section of teachers in the high school auditorium Thursday, by Miss Alwino W. Luers of Wayne, president, and Miss Elizabeth Mitchell of the South Side, secretary. "Kindergarten children are too dependent," said Miss Katherine Martin of the University of Chicago. "They are encouraged too much to ask continually what to do and 'is this right?' and so on. It is better to take suggestions from the group, let them be thinking, initiating, cooperating."

Leavitt Tells of Object of Manual Training in School

Prof. Frank M. Leavitt of the University of Chicago told teachers assembled at the Young Women's Christian association auditorium that confidence, originality and ability to adapt knowledge to contingencies were the objects of the teaching of manual training. He declared human skill is as important in the modern days of wonderful machinery as in the past. "We still need skilled workers behind skilled machinery," he said. "Children who study manual training are not engaged in a contest with their teachers to see whether they can guess correctly 75 per cent of the time," asserted Prof. Leavitt. "When they finish an article they can tell whether it is accurately made or not. In manual training courses the children do the worrying instead of the teachers, as in other studies."

4,200 TEACHERS ARE REGISTERED

(Continued from Page One.)

German-American Teachers' seminary of Milwaukee spoke on "The Direct Method." He touched on the universal demand for efficiency. To get efficiency, he said, the acquisition of knowledge must be a source of pleasure to both pupil and teacher. Expounding the merits of the so-called direct method of teaching language, he said:

Features of Direct Method.

First, it discards the practice of translating, corrects the pronunciation in the new language, and trains the pupil to speak the language. It insists on correct pronunciation, and in order to do it, it gives the pupil a thorough training in phonetics. For older students it makes use of the phonetic alphabet and gets valuable returns in the greater accuracy of pronunciation and the ability for self-help which it develops in the student.

Second, conversation is not a mere memorizing of phrases, but is the basis of the entire work. The teacher must select the subject from the pupil's circle of interests.

Third, Some teachers using the direct method believe that systematic instruction in grammar is unnecessary. They believe that it is necessary, and that grammar work affords training in both language and memory. It gives, not from rule to example, but from numerous examples to the rule. The pupil's interest is excited by the examples.

Fourth, It takes great pains to teach a pupil the vocabulary. Here it is not merely a matter of remembering the English word and the English one corresponding to it. The pupil must remember the word and be able to use it. There must be a direct connection between the idea and the word.

Fifth, This vocabulary work demands that much instruction be based on lessons with concrete things. "Reading is several hundred former students of the Fremont Normal school gathered at the Paxton hotel between 4 and 6 o'clock in the afternoon for a reception, in which practically all of the faculty was in line. The parlor floor was used, and light refreshments were served. President and Mrs. W. H. Chammann were at the head of the receiving line.

Bessey's Loss Told As Biologists Meet

Absence of the late Dean Charles Bessey from the meeting of the biological section of the Nebraska State Teachers' association at the Young Men's Christian association yesterday afternoon was noted by President William Tout of North Platte.

A paper by Chancellor Samuel Avery of the University of Nebraska on "Dr. Bessey, an appreciation of His Life and Work," was read by Emma Anderson of Lincoln. The paper was the same in text as that read by Chancellor Avery before the Institute last winter.

A few extracts from the paper read: "Dean Bessey was a great teacher and scientist. He inspired his students to enthusiastically pursue their work during vacation times.

"Many of his students have secured important positions with the government, colleges and commercial concerns. He was a writer of scientific books of first rank. He had a profound influence upon the botanical thought of the country. His scientific ability attracted students from every state of the union. He was a leader in thought and had a great personality.

"Dean Bessey was a harmonizer at the university. He was hopeful and light-hearted and believed all things worked for the best.

"As I scan the horizon I find no one to take his place. The work of such men as he form the foundation of our greatest strength and glory."

TALKS TO THE TEACHERS ON CITIZENSHIP.

Mary Antin.

Making Ends Meet, Young Husband Steals, Is Caught

Charged with the theft of some 200 jars of canned fruit from the home of Joseph Fredell, 104 South Twenty-eighth street, W. P. Farrell, a 23-year-old resident of eight months, was taken into custody by the police. Farrell and his bride, who is 20 years old, live in the basement at 1137 South Twenty-ninth street, and a neighbor is said to have seen him make the above theft.

Young Farrell works for the Nebraska Telephone company, and says his salary is \$4 a month. His wife works in a local laundry for the sum of \$15 a month. Farrell says that he and his wife have found difficulty in making both ends meet on the meager salaries and that he took the fruit for that reason.

When a lad Farrell was paroled from the county jail and he says the theft of the fruit was his first offense since he was paroled.

When Detectives Murphy and Rooney and Officer Lester Warner went to the Colfax telephone exchange to arrest young Farrell he saw them coming and attempted to make his escape. Warner fired one shot in the air and Farrell stopped.

When police searched the Farrell domicile quantities of goods including some dentist's gold were discovered and it is believed these articles were stolen.

Due to young Farrell's tale of woe regarding his inability to provide for himself and wife it is probable no complaint will be filed against him.

URGES LIBERAL USE OF WATER BY YOUNG WOMEN

Addressing the biological section of the State Teachers' convention yesterday afternoon at the Young Men's Christian association, Gertrude Gardner of the Kearney State Normal urged young women to be liberal with the use of water for internal and external purposes. She urged that girls learn more of themselves through the schools and made a plea for physical efficiency which is the foundation of success.

The value of the human body in its economic and racial relations should be given more attention in the school room, she maintained in her paper on "Personal Hygiene for Young Women."

CALIFORNIAN MARRIES SISTER OF FIRST WIFE

Harvey H. Christian, a widower from Los Angeles, Cal., was married in Omaha Wednesday evening to Miss Beale Lawrence of Davenport, Ia., a sister of his first wife. His 5-year-old daughter was one of the witnesses at the wedding, which was performed at the parsonage of the Rev. W. H. Underwood, pastor of McCabe Methodist church. The couple decided to meet in Omaha to be married and they will stay here for a day or two before going to Los Angeles to make their home.

BARTENDER SAYS NEGRO TRIED TO STRONG-ARM HIM

Tom Harris, colored, has been arrested by Officer Schwager on complaint of Sam Mazze, bartender at J. Silk's saloon, Tenth and Davenport streets. The latter asserts that Harris attempted to strong-arm him the other night, but in the struggle he escaped. Harris is being held for investigation.

Do You Suffer with Colds? Take Dr. King's New Discovery, the best cough, cold, throat and lung medicine made. The first dose helps, 50c. All druggists.—Advertisement.

DEATH RECORD

Max Uhlig, HOLDREGE, Neb., Nov. 3.—(Special Telegram)—Max Uhlig, a pioneer business man of this city, passed away at noon today.

Breaks a Cold in a Few Hours

First Dose of "Pape's Cold Compound" relieves all gripe misery.

Don't stay stuffed-up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end gripe misery and break up a severe cold either in the head, chest, or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.—Advertisement.

LANSING'S NOTE TO ALLIES SHARP

Communication to France and England Understood to Be Very Emphatic.

TO BE DELIVERED THIS WEEK

WASHINGTON, Nov. 4.—At the instance of the British embassy, copies of the latest American note to Great Britain protesting against interference with neutral shipping will be handed to the British ambassador and the French ambassador in Washington simultaneously with the delivery of the note by Ambassador Page to the British foreign office. This is in recognition of the fact that France is equally concerned with Great Britain in the subject matter of the note, having by official orders of the French admiralty adopted the British rules governing seizure and detention of neutral ships and cargoes substantially without change.

Sharp in Places.

It is learned that secretary Lansing's note contains some sharp passages and is very emphatic in condemnation and protest against several features of the British order-in-council. Objection is made particularly to that part of the British order-in-council under which cruisers have diverted from their voyages and detained for long periods in British ports—American vessels bound for the neutral ports of northern Europe. It is held under the general principle of international law, that while these vessels might properly be stopped and searched on the high seas, they should not be taken to distant ports for examination at great loss to the shipowners, unless the British authorities possess information that absolute contraband is included in their cargoes.

Intimation of Grey

Though the issues are understood to be strongly presented by the United States, they are not regarded as beyond the reach of diplomatic treatment. It already has been intimated by Sir Edward Grey in the British Parliament, however, that the whole subject may be rapidly nearing a phase when a peaceful and satisfactory adjustment can be reached only by means of an international commission.

The American note has been sent to London by special messenger, and probably will be delivered to the foreign office by Ambassador Page this week.

Two Thousand Iowa Teachers Present at Opening Meeting

DES MOINES, Ia., Nov. 4.—Fully 2,000 delegates had registered for the opening of the state teachers' convention here today, and it was expected that by tomorrow there would be at least 3,500 teachers present. The morning was taken up in the reception of delegates, while this afternoon was devoted to departmental meetings and to the initial sessions of associations affiliated with the teachers' organization.

The program provided for the first general session of the convention to open at 6:30 o'clock tonight. President H. B. Smith of Dubuque will deliver his annual address and be followed by David Starr Jordan, president emeritus of Leland Stanford, Jr., university, as the principal speaker of the evening. The routine work of the convention will begin tomorrow and the closing session will be held Saturday.

The Iowa Congress of Mothers and the Parent-Teachers' association, and the Iowa Home Economics association opened their convention in conjunction with the state teachers.

DISABLED SUBMARINE TOWED TO PORT

THE HAGUE, Netherlands (Via London, 2:35 p. m.), Nov. 4.—A German submarine in distress was towed into Ter-shelling, a Dutch island in the North Sea, by a Dutch lifeboat this morning. A Dutch torpedo boat saw the rocket signals sent up by the submarine and reported it to an anchorage. The undersize boat is being closely guarded.

Sidelights of Teachers' Meeting as Picked Up at Headquarters

Dr. H. A. Senter is the early-to-rise-and-late-to-bed man of the convention. He takes a bulletin daily giving a detailed program of the day and their works tirelessly to distribute it in all the hotels and the various rooms where the sectional meetings are held. He is up at 4 o'clock in the morning and sometimes to almost 4 the following morning. Wednesday night he distributed bulletins in sixteen of Omaha's hotels after the hour of 1 o'clock.

Former State Superintendent James E. Doherty has arrived from Stevens Point, Wis., to attend the convention. He will be present at the Peru banquet.

The work of the reception committee is so systematized that all the outside talent for the convention is met at the station by a person or persons specially delegated for the purpose.

Miss Fannie Forsyth is in charge of the information bureau at the Home and finds it a very busy place.

A number of the fifty high school cadets who are escorting teachers about the city are using automobiles furnished by their parents.

Superintendent A. H. Waterhouse of Fremont is attending the association meeting and renewing many old acquaintances in Omaha, where he was formerly principal of the high school.

The University of Nebraska alumni luncheon to be held at the Rome hotel at 12 o'clock today will be largely attended.

The Nebraska High School Debating League will meet today at 1:30 in the banquet room of the Rome hotel.

Secretary Walter S. Whitten of the Lincoln Commercial club is on the ground. "Oh, no," quoth Whitten, "we are not here to get the convention for Lincoln."

Coppel is Elected President of the Rio Grande Road

NEW YORK, Nov. 4.—Arthur Coppel was elected president of the Denver & Rio Grande railway, Kingdon Gould vice president and E. C. Jeffery chairman of the board at the meeting of the road's directors late today.

The executive committee of the road. It was announced, is composed of George Gould, E. C. Jeffery, Kingdon Gould, Arthur Coppel and E. L. Marston.

The Gould faction was said to have favored the election of H. U. Mudge, former president of the Chicago, Rock Island & Pacific, to the presidency. Arthur Coppel, the newly elected president, was a director of the road prior to today's meeting. He is a member of the brokerage firm of Matland, Coppel & Co., with offices in this city. He is also a director

of the association, is now connected with the state superintendent's office at Lincoln.

Miss Edith Lathrop, former president of the association, is now connected with the state superintendent's office at Lincoln.

H. M. Eaton, superintendent of schools at Emerson, is enjoying his teaching work better since he left it some years ago for a turn at politics, where he held a state office for a few years. Eaton is essentially a school man and when he was connected with the Fremont Normal some years ago was considered a wizard in every line that he taught.

L. C. Smith, head of the commerce department of the Columbus school, is sticking close to the commerce section of the work while here, and says the politics of the association concerns him so little that he cares not a flash egg whether Cleveland or Harrison are elected.

Familiar figures missed at the convention this year are those of Charles Arnot, for a long time superintendent of schools at Schuyler, who is now in the banking business at Fremont.

Another face absent from the convention this year is that of W. W. Thies, formerly superintendent of schools at Bremer and Pierce. He is taking advanced degrees in Columbia university at New York City.

In the Rio Grande Southern, several steamship companies and several hotel and real estate organizations.

CHICAGO, Nov. 4.—Election of Arthur Coppel as president of the Denver & Rio Grande railroad came as a surprise to friends of H. U. Mudge, who regarded his election to the position as a foregone conclusion.

Mr. Mudge stated that he would resign from the Rock Island, of which he was former president and is now chief executive officer under the receiver.

"The election of Mr. Coppel will make no difference in my intention to leave the Rock Island at the earliest convenience of the receivers," continued Mr. Mudge.

"The road is now able to get along without my assistance and is making money. In fact, western roads in general are, despite low rates forced on them."

You're Bilious! Clean Liver and Bowels Tonight

Don't stay headachy, sick, or have bad breath and sour stomach.

Wake up feeling fine! Best laxative for men, women and children.

Enjoy life! Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, breath offensive, and stomach sour. Don't stay bilious, sick, headachy, constipated and full of cold. Why don't you get a box of Cascarets from the drug store and eat one or two tonight and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. You will wake up feeling fit and fine. Cascarets never gripe or sicken like salts, pills and calomel. They act so gently that you hardly realize you have taken a cathartic. Mothers should give cold, sick, bilious or feverish children a whole Cascart at any time—they act thoroughly and are harmless.—Advertisement.
